# Weigh Station Bypass

Save time and money, and keep drivers happier with fewer stops.

America's leading weigh station bypass service, integrated with ORBCOMM's truck management solution.

Thousands of hours are wasted at weigh stations each year. Drivewyze® PreClear weigh station bypass, compatible with ORBCOMM®'s truck management solution, keeps your drivers moving by allowing them to bypass weigh stations and inspection points based on safety scores. This means more billable hours, happier drivers, faster deliveries and more money in your pocket.

In a highly competitive industry where driver satisfaction and retention is more important than ever, weigh station bypass is a necessity for carriers who want to remain ahead of the competition.

Save time and improve driver retention

- Drivers love weigh station bypass. It's proven to help recruit and retain drivers.

- Keep drivers on the road, make the most of their hours of service, allow for faster load delivery and put more money in their pockets.

- Reduce missed stops and citations. Heads-up notifications of upcoming weigh stations improve safety.

- A carrier with 400 drivers reported saving 360 hours per month.

Boost your bottom line

- Save on fuel and maintenance costs associated with frequent weigh station stops and starts.

- Enable faster load delivery, improving profitability and customer service.

- No additional hardware costs. It works seamlessly with your existing ORBCOMM truck management solution.

- Improve your safety ratings. Weigh station bypass means less time in backed-up traffic and less merging back into traffic, avoiding costly accidents.

Optimize hours of service

Save on fuel and maintenance costs

Improve safety ratings

Integrates with ORBCOMM's truck management solution

No transponders to install or replace

**Reduce missed stops and citations**

Easy to activate and use

How much are weigh station stops costing you? Contact us for your free, personalized weigh station activity report, based on actual data from your fleet.

North America Coverage Map
